BOOK 31

**Memo-Matic\***

**KNITTING FASHIONS**

**BOOK No. 31**

**SINGER AUSTRALIA LIMITED**

This varies slightly with each Singer Machine, so it is necessary to check your tension before commencing.

## How to check your tension

**It is advisable to make a swatch or sample piece in the yarn to be used and measure 24 hours later.** Set up single bed machine with 70 stitches, and with the T.D. at the setting recommended for the yarn, work 70 rows. Remove work from machine and, using a rule or inch tape, measure the stitches to 4 inches (10 cm) and the rows to 4 inches (10 cm). If the tension is too loose, move the T.D. setting forward one dot. (Remember when working ribbing to alter both T.D.'s either back or forward to correspond with stockinet.)

*These garments have been designed exclusively for the yarns specified. We strongly recommend the use of this yarn to obtain the correct results.*
